CUBAN INSURGENTS.

An Important Engagement Expected.—Spanish Press Agency. Havana, Jan. 21.—General Marti, acting Captain-General of the Spanish forces here, who left this city at 10 o'clock yesterday morning, is expected to meet the insurgent forces of the province, who will act as scouts, near San Antonio de Los Pinos a distance of 15 miles from Havana, to-night. He has with him a detachment of cavalry, and hopes to strengthen it by the addition of a regular force, who is understood to be still at

Spain, contrasting strongly with popular sympathy and interest from the United States.

they were at the house alone, and advised him that he should go back and stay with her. Benson said he thought he would not go back, and went home. Next day, after the body was found, he cautioned Benson not to go with two knives about this, as it might appear as if he were on the floor, and had used a knife. While the investigation was going on he served to him by a boy, whose name was given later, not to mention anything about their being at Kempton's house that night. Benson stated that when he reared the house Peter said he would go to

THE PATRON GRIT PARTY.

The shock which the Patron movement received in the election of a London at Paton, in the County of Prince Edward, at the recent meeting of the County Council of that county, has been a terrible blow. A report is now current that Dr. Platt, ex-M.P., will be the Reform candidate in place of W. V. Pettit, the present Patron candidate. The reason for this change is said to be the defeat of H. M. Williams, Member of Parliament, and County Secretary of the Patron organization, for the Wardenship, by H. P. Benson, Member of Hillier, Conservative. For weeks preceding the election of the County the whole Patron staff were at work in Mr. Williams' behalf and his election was looked forward to as an evidence of a predominance of Patron feeling in the county and a safe conclusion to base Mr. Platt's election for the Commons on. While, on the contrary, if a Conservative were elected Warden, it could be taken as a safe indication of the feeling of the county adverse to Patron principles, and would also show that the Conservatives were on the "Grit Party" scheme and did not propose being humbugged by it any longer. Whether there is any real change of candidates is not yet certain, but at all possible, as many liberal Reformers who became identified with the error at first, believing that good would come out of it, and much of the strong partisan feeling which has been characterized by both the old parties would be done away with, and a more conciliatory and moderate stand would be taken by Parliamentary representatives elected by the body that those elected by the old parties, are now fully convinced of the fallacy of that belief and the ineffectiveness of those who spread it. Time has left no doubt in the minds of both the old Conservatives and Reformers, that from first to last the whole Patron movement was, and is, nothing more or less than a second class "Grit dodge" in disguise, having been concocted, schemed, planned, and worked in the interests of the Grit party, for the purpose of increasing its strength by deluding into its membership Conservatives who were favorable towards a more independent political policy. The error at first worked well and caught a number of sore-loosed and disappointed office seekers and politicians from both the old parties, who may have been weak enough to have imagined a Government some day would be formed from the Patron ranks, and then their claims would come in for favorable consideration. What has taken place in Prince Edward, which is perhaps one of the strongest Patron counties in Ontario, will not be received with any degree of enthusiasm by the organization, but will haunt the Patron leaders with a strong premonition of what awaits them at the approaching general election. Their doom is already written in fiery letters upon the walls of the lodge rooms, and what was by many pronounced from the first as the weakest of Grit schemes, is now fully confirmed by every Conservative member that stops one moment to consider. Any organization that advocates the Grit party and expects its principles to be loomed by Conservatives for the express purpose of placing the Grit party in power, is sure to come to grief, as Conservatives are not so easily made to turn their interests to be trifled with by the kind of material the Patron and Grit parties hold as competent to manage the affairs of Canada.

CAPE BRETON.

The election in Cape Breton, on which public attention was centred during the past two weeks, has resulted in the return of Sir Charles Tupper by a majority of 300 greater than was cast in favor of the Conservative candidate in 1891. The Liberals did their utmost to reduce the Conservative majority by sending their strongest men into the contest, and the Attorney General Longley, Mr. D. C. Fraser, M.P., Mr. C. R. Devlin, M.P., and others who were supposed to be best fitted to appeal to the various classes of whom the constituency was composed, and frantic were their efforts to accomplish their purpose. The result is a great personal triumph for Sir Charles Tupper, the old war horse of "Cumberland," and a most significant confirmation of the principles of the Conservative party and of their policy of justice to the minority in Manitoba.

Sir Charles re-enters the Parliamentary arena—the scene of many a triumph in past times—under the most auspicious circumstances; and that he has lost none of the powers which have distinguished him above most of his fellows has been abundantly demonstrated by his easy campaign in Cape Breton. That he will add materially to the strength of the Conservative party in Parliament and in the country is certain, and we congratulate Sir Charles and the party on the result.

"The Common People."—I told them to do not care to argue about their ailments. What they want is a medicine that will cure them. The simple, honest statement "I know that this is the best medicine I have ever used" is the best argument in favor of this medicine. It is a fact that this medicine has cured many thousands of people.

A HEAVY MORTGAGE.

How a prominent farmer quickly lifted it.

A mortgage has been described as an incubator to industry, a heavy mortgage, a sure sign of ruin. The last in particular, for it is a mortgage that is a sure sign of ruin. The last in particular, for it is a mortgage that is a sure sign of ruin. The last in particular, for it is a mortgage that is a sure sign of ruin.

PHOTOGRAPHING THE STARS.

Wonderful Collection of Plates at His disposal.

In photographing the stars a set of lenses prepared for the purpose takes the place of the object glass of the telescope. The area of sky covered by the plate used by the Harvard observatory is 100 square degrees, and as the total area of the sky is about 41,000 square degrees, 400 plates are sufficient to map the entire sky. Complete photographs of the heavens have been repeatedly made by the observatory and the plates of the special interest have been covered by the Harvard observatory. The collection of plates now stored at Cambridge, constructed especially for the purpose, is a complete number and the addition from year to year of about 7,000 plates is now going on.

Mr. Edwin Arnold has lately found cause for regret in the publication of the astronomical work to the satisfaction of facts and in the publication of the astronomical work to the satisfaction of facts and in the publication of the astronomical work to the satisfaction of facts.

NIAGARA'S HYPNOTISM.

Science Shows How the Great Cataract Works its Victim to Death.

Niagara Falls is now recognized by science as a marvelous illustration of the hypnotism of the human mind. The power has been shown to be a thousand times as great as the power of the human mind. The power has been shown to be a thousand times as great as the power of the human mind. The power has been shown to be a thousand times as great as the power of the human mind.

science

Science is "knowing how." The only secret about Scott's Emulsion is years of science. When made in large quantities and by improving methods, an emulsion must be more perfect than when made in the old-time way with mortar and pestle a few ounces at a time. This is why Scott's Emulsion of cod-liver oil never separates, and why sweet for years, and why every spoonful is equal to every other spoonful. An even product throughout.

Other emulsions you are likely to get under other names, but Scott's Emulsion is the only one that is perfect.

Daily Intelligence.

73-78 VS. 92-93

There have been two financial depressions in Canada since Confederation, and of the two no one doubts that the one from which business is now commencing to revive, has been the most trying to the world. Yes, this commercial crisis has ended in riots, bank failures by the hundreds, strikes of all manner of labor, and starvation; but Canada has gone through it all safely. The first depression was felt the world over, but more particularly so in Canada. Now this singular, the world should have two depressions 73 to 78 and 92-93, and that in the first one we should be almost ruined, and in the last one only just rained. During the former a revenue tariff was in force, and the latter a moderate protective tariff. In 1877 trade had declined to such an alarming extent that the taxes were very low, and Sir Richard Cartwright the Finance Minister was forced to tax goods that cannot be produced in Canada, such as tea, coffee, and further his Government was not paying out money for the construction of great public works, yet considering the amount of great enterprise undertaken by the Conservative Government, the tax of Sir Richard was 43 cents more per head than it is today under the present tariff. Instead of increasing the taxation, as Sir Richard did, our present rulers have reduced the tax on tea, coffee, and all of natural skill and industry, and no doubt this has helped matters considerably; but, remember, that in the United States manufactured goods fall enormously in value, and all our industries would have perished had not the Free Trade been in vogue. It was protection that prevented such a disaster to our people, and it would have been a repetition of 1878, when our farmers complained of the flooding of the market by the United States. The idea that the Americans should protect their own mammoth producers and also have full swing here as Sir Richard wants it, is his budget speech, is inadvisable. Mr. Foster would have the reversal of the last six months and also open the financial gates and bank managers to the same effect. There is a shadow of doubt that good times are near at hand again, and if the National Policy is as good as it was in former good times, it is as certain as it was in the late financial blow, it surely will be equally worthy of credit in the "good times coming."

ANOTHER EMINENT AUTHORITY.

In addition to the valuable opinion of the Rev. Dr. Shaw, Principal of the Methodist College at Montreal, the Toronto School question, we now have that of the Rev. Prof. Clark, of Trinity College, Toronto, as to whose views we quote following from Monday's issue of the Toronto Globe.

Rev. Prof. Clark of the Trinity College, delivered an address before the Union for Fraternal Progress, for two years, at a very afternoon. His subject was "Theories of Education," which he treated in a very able manner, ending up by touching on the question of Separate Schools for Manitoba.

Prof. Clark expressed the opinion that if that Province had under the same conditions at Confederation they would have received the same compromise in the matter of the separate schools as the other Provinces did. Any system, he said, he had found in the United States of citizens will cause trouble in the nation. Where there are separate schools they should only be in districts where the population was large enough to warrant them, and they should have the same respect for a tendency among some to waste time in religious instructions, but the Government must not maintain a system in both kinds of schools. The Government must not attempt to prevent any patriotic feeling on the ground, he said, but for the real measure for the Union of the United States.

When such eminent men as Sir William Dawson, Rev. Dr. Shaw and Rev. Prof. Clark express themselves in favor of the course proposed by the Government, we cannot but think that the great body of our people will, on due consideration, take the same view of the subject as they do.

A Divided Party.

Montreal Gazette, Feb. 13.

The introduction in Parliament of the Manitoba Homestead Bill has already split the Liberal party into two ready fighting with each other more keenly than they do with the Conservative party. The section of the measure in question is held up, so to speak, because it represents the triumph of the Roman Catholic.

LIBERAL MISMANAGEMENT.

In the year 1873-4 the expenditure on the Post Office and Public Works Department amounted to \$2,684,051. The revenue was only \$2,150,292. This involved a net charge on the treasury of \$533,759. This charge was met by the treasury in respect of the year 1874-5 by the sum of \$414,000. In the year 1875-6 the expenditure on the Post Office and Public Works Department amounted to \$2,684,051. The revenue was only \$2,150,292. This involved a net charge on the treasury of \$533,759. This charge was met by the treasury in respect of the year 1874-5 by the sum of \$414,000.

Now, what took place after the return of the Conservatives to power? Just in 1883-4 the expenditure for the two departments had risen to \$7,453,068 with the revenue at \$6,612,086. The deficiency to be made up out of the general funds of the country last year was \$820,000, being \$84,000 less than it was sixteen years ago, when the Liberals were in power. Every dollar of new expenditure under Conservative rule has been taken care of by increased revenue without the addition of a cent to taxation. In the interval the postal service has been extended through the Northwest, the weight of three-cent letters has been increased from a half ounce to an ounce, the city delivery system has been much enlarged, canal boats have been retained and freight rates on Government railways lowered.

A BATTLE OF SOLUTION.

Mr. Lloyd Mills estimated that production would knock \$10,000,000 off the revenue of the Dominion, and consequently force it to adopt other methods of taxation. As a matter of fact, production has made the revenue of the country greater and enabled the Conservatives to knock off taxes on tea, sugar, coffee and coal, which the Liberals were compelled to exact. The ignorance of the Liberals of fiscal question has always been their stumbling block. They do not even know today what every man in England knows, that Free Trade as they have it in England will give us direct taxation as they have it there.

Paine's Celery Compound

Nature's True Cure.

THE KING OF DYSPESIA MEDICINES.

The acknowledged King of dyspepsia medicines. This high position has been gained by Paine's Celery Compound after years of grand success in every portion of the Dominion. Our testimonials, our most eminent judges, the clergy, medical men, business men, and all who have tried it, all testify to its efficacy in procuring the relief and curing of Paine's Celery Compound. It has cured the worst cases of dyspepsia, indigestion and stomach trouble, after the failure of all other remedies. Mr. George A. Wilson, of Adams, Ont., writes: "I want to add my testimony in favor of your valuable remedy, Paine's Celery Compound, which I have been taking for over a year for dyspepsia and severe pain in the neck and back of head. Your medicine has produced a complete cure in my case, and I have recommended it to several friends, who claim they have received great benefit. I can testify to its worth, in all honesty, that your Paine's Celery Compound is a very valuable medicine."

Gaily Confidence.

"I say," said the regular customer, as he stopped at the restaurant counter to pay for the dinner he had had, "where did you get that new suit you are wearing today?"

"What's the matter with it?" asked another, who had been looking at it. "It's a fine suit, isn't it?"

"Oh, that's nothing, the matter with it; that's why I asked," said the first.

The Costly Mistake.

"You women are so ridiculous," said the magazine editor, "that you get a dress for a reasonable amount—sometimes—and then go and pay about four or five times as much for it."

"Well," answered his wife, "I do not see that you have any call to say anything. You pay \$7 for a story and \$12 for the illustrations."—Cincinnati Enquirer

Correspondence.

Willard correspondents will be needed again for the coming year. It is a good thing that the city has a good number of correspondents.

The Butcher's Bill.

DEAR SIR: There have been a number of letters written lately to the editor of the INTELLIGENCER in reference to a Butcher's Bill and high prices of meat. The matter is a very important one, and it is the duty of the city to take care of it.

Little Ones Well Dressed I.

Many Mothers Know How to Do It.

Recommended and thrifty mothers buy the new dress for their little ones. It is a simple dress, and is worn in a variety of ways. The new dress which commands attention is the one in Empire style. It is a simple dress, and is worn in a variety of ways.

thinness

The diseases of thinness are scrofula in children, consumption in grown people, poverty of blood in leanness. There is the one means of overcoming them. Everybody knows cod-liver oil makes the healthiest fat. In Scott's Emulsion of cod-liver oil the taste is hidden, the oil is digested, it is ready to make fat.

When you eat for Scott's Emulsion and find it is a good thing to eat, you can trust the man who says it is.

PROGRESS AND PROTECTION.

Our sales in Spain were \$900 in 1874, and \$66,274 in 1894. This seems to indicate that Protection has developed. The Liberal policy of Free Trade would decrease the value of every bushel of wheat grown in Canada, because it would destroy the home market for grain.

Canada paid in for pensions in 1877 under Liberal rule \$115,531, but in 1894 under Conservative rule, the bill for pensions was \$56,707. Who were the economists?

Our mining interests have prospered under Conservative rule. Export of products of the mine in 1878, \$2,762,762; in 1894, \$8,799,337.

Our exports of manufactures have doubled since the Liberals came to govern Canada. Here we have 1878, \$1,979,935; 1894, \$3,241,691.

The Liberals decreased the export duty of Canada by eight millions and Mr. L. R. Davies says, "What we did before we would do again."

Our exports per head in 1878 equalled \$16.67, and in 1894 they equalled \$20.68. This discounts the Crib fabrication that under Protection the country has gone to the dogs.

Under Liberal administration our trade with Australia went down to \$79,643 in 1876. Under Conservative administration it has been increased to \$327,745.

When the Liberals took office the expenditure of Canada was \$19,174,649. When they left office it was \$24,455,382. So much for their profession as economists.

Canada's exports to the United States are \$100,000 a year more than when the Liberals ruled. Figures: 1878, \$23,244,808; 1894, \$35,800,940.

The Commercial figures in Canada in 1878, after five years of Liberal rule, represented \$23,908,000 of capital, and they were 40 per cent. larger than the failure of 1894.

In 1877 Canada exported 559,995 bushels of wheat, and in 1894 exports were valued at \$14,002,263. This answers the charge that Protection has paralyzed our industry.

Even the fisheries yield better under Conservative than under Liberal administration. Of their products we exported in 1877, \$6,858,976, and in 1894, \$1,102,692. Yet the Liberals say we are poorer.

Canadian farmers received in 1877 \$12,707,507 for their exports of animals and their products, and in 1894 they received \$31,881,973. Is it any wonder that they retain a policy that thus develops their trade?

Canada's coasting trade has developed enormously under Conservative administration. The vessels employed in this business in 1877 had a tonnage of 8,960,862 tons, and in 1894 they represented 25,991,906; growth more than 300 per cent.

Under the Liberal policy we shipped to England in 1876 goods to the value of \$4,724,477. Under the Conservative administration our exports to England in 1894 equalled \$66,538,862. It is not hard to compare these figures and so which policy developed trade.

Germany bought from us in 1891, 1892, 1893, and 1894, purchases worth of goods to the value of \$2,046,002 worth of goods. This is an answer to the question "Has the Protective policy developed trade?"

Canada's exports to the United States in 1877 were \$19,174,649; in 1894 they were \$24,455,382. Yet the Liberals say that the trade of the country has not developed.

The collection of revenues on the public works in 1875, under Liberal administration, \$187,091, and in 1894, under Conservative administration, \$184,237. During the same period the revenue from public works increased from \$1,142,599 to \$2,792,746.

Under Conservative administration the revenue more than doubled and the cost of collection was decreased.

THE POTATO CASE.

In our yesterday's issue we mentioned that the potatoes which were offered for sale and found to be short-weighted were of the variety known as the "Red Skin" variety. It is thought that the potatoes which were found to be short-weighted were of the variety known as the "Red Skin" variety.

Experience Has Proved It.

A triumph in medicine was attained when a man who had been suffering from a long and severe attack of consumption was cured by the use of Scott's Emulsion of cod-liver oil.

Life Worth Report.

George was a French Canadian, a man of about 40 years of age, who had been suffering from a long and severe attack of consumption.

This is one of the most astonishing facts

in the history of the world, that a man who had been suffering from a long and severe attack of consumption was cured by the use of Scott's Emulsion of cod-liver oil.

My health was completely restored by SCOTT'S EMULSION OF PURE COD LIVER OIL. I took it in 21 days and my weight by 19 lbs.

His Face was a mass of blotches.
But now his skin is clear as a year old baby's.

Scott's Sarsaparilla his Salvation.
Nothing brightens the face like the knowledge that one's appearance is a passport to those with whom one comes in contact, and there are few who do not feel that the disfiguring cause has been removed. Says Mr. A. H. Smith, of New York: "I was a year and a half ago a mass of blotches, some of which were constantly full of matter. I was a social outcast, my own wife, but my face got so bad that customers drifted away from me. I was a man and wanted to do good. I had a good blood in a hospital, and I was told that Scott's Sarsaparilla was recommended to me. The first bottle did me much good, and after taking five bottles my skin is as clear as possible, and not a sign of my previous disfigurement. I say Scott's Sarsaparilla is the best blood medicine going and an ever-acting cure for Pimples, blotches, boils, ulcers and all diseases arising from vitiated blood and impure blood is radically cured by Scott's Sarsaparilla, a concentrated compound of the finest medicines ever known. You cannot get it at a drug store. You must get it at a cure."

Dont Play . . .
With Two Kinds of Fire!

You insure against one kind of risk, that by another kind of risk, you are liable to lose your money. The only way to insure against both kinds of risk is to insure with the Liverpool, London & Globe Insurance Company. They have the largest capital in the world, and they have the best fire insurance in the world. They have the best fire insurance in the world. They have the best fire insurance in the world.
